

Procite-D™ - Catecholamine Formula*

SYNOPSIS AND REVIEW

Procite-D™ is a catecholamine support formula specifically targeting dopamine while also supporting PEA, norepinephrine, epinephrine and beta-endorphin pathways.* Cofactors and/or methylated B vitamins critical for synthesis are included along with the proprietary Neuro Support Blend™ (NSB) for enhanced absorption.*

Use Procite-D™ in the rebalancing process to support dopamine/catecholamines.* Inhibitory supplementation should be used prior to beginning Procite-D. Increasing catecholamine levels can suppress serotonin.

The NeuroSupport Blend™ (NSB) enhances absorption.* Improved absorption allows for smaller doses and fewer capsules.

EXPLANATION OF INGREDIENTS

Mucuna pruriens (standardized to 20% L-DOPA): Natural source of L-DOPA, a direct precursor to the catecholamines dopamine, norepinephrine and epinephrine.*

DL-Phenylalanine: DL-phenylalanine acts a precursor to PEA as well as the catecholamine pathway.*

N-Acetyl-L-Tyrosine: Precursor to L-DOPA, the direct precursor to the catecholamines dopamine, norepinephrine and epinephrine.* Acetylated for enhanced bioavailability.

N-Acetyl-L-Cysteine: Antioxidant.* Helps maintain cell health during catecholamine supplementation.*¹

Folate (as (6S)-5-methyl-tetrahydro folic acid, glucosamine salt) (Quatrefolic®): Cofactor in methylation reactions essential for the synthesis of dopamine, norepinephrine and epinephrine.*

Supplement Facts		
Serving Size: 1 Capsule		
Servings per Container: 60		
	Amount Per Serving	% Daily Value
Vitamin B6 (as pyridoxal-5-phosphate)	15 mg	882%
Folate (as (6S)-5-methyltetrahydrofolic acid, glucosamine salt) (Quatrefolic®)	680 mcg DFE	170%
Vitamin B12 (as methylcobalamin)	300 mcg	12,500%
Selenium (as L-selenomethionine)	50 mcg	91%
Cognitive Support Blend †	420 mg	*
N-Acetyl-L-Tyrosine		
Mucuna pruriens (Standardized to 20% L-dopa) (seed)		
DL-phenylalanine		
N-Acetyl-L-Cysteine		
NeuroSupport Blend™	102.5 mg	*
Protease		
Amylase		
Lipase		
BioPerine® (Black Pepper Extract) (standardized to 95% piperine) (Piper nigrum) (fruit)		

* Daily Value not established.

PROCITE-D EXPLANATION OF INGREDIENTS *continued*

Selenium: Supports selenoproteins, important antioxidant enzymes.* Selenium deficiency may contribute to decreasing dopamine levels.²

Vitamin B6: (as pyridoxal-5'-phosphate) Active form of B6. Cofactor in the conversion of L-DOPA to dopamine.*

Vitamin B12: (as Methylcobalamin) Coenzyme form of Vitamin B12.* Methyl donor.*

NeuroSupport Blend™ (NSB) Proprietary mixture composed of Bioperine® and plant-based enzymes clinically proven to maximize nutrient absorption.*
