

Hemp extract VESIsorb®

Introduced 2019

What Is It?

Enhanced bioavailability, broad-spectrum hemp extract.

Features Include

- Enhanced-bioavailability VESIsorb® technology offers a unique, self-assembling colloidal system to enhance absorption by promoting the ability of the hemp extract to dissolve readily in an aqueous environment
- Solvent-free, supercritical CO₂ extracted
- Broad-spectrum hemp extract with 10+ phytocannabinoids, including CBD, beta-caryophyllene (BCP), and other terpenes
- 25mg CBD per softgel
- THC-free (<0.001%)
- US-sourced, field-grown agricultural hemp
- Convenient, small, easy-to-swallow softgel

What Is The Source?

Hemp oil extract is derived from US-sourced, field-grown agricultural *Cannabis sativa* seed, stalk, and stem. Gelatin is bovine-derived.

Recommendations

Pure Encapsulations® recommends 1 softgel capsule daily, with or between meals, or as directed by a health professional.

Are There Any Potential Side Effects Or Precautions?

There are reports of dry mouth, diarrhea, vomiting, decreased appetite, weight loss, somnolence, fatigue, hypotension, and elevated liver transaminases from cannabidiol oil. If pregnant or lactating, consult your physician before taking this product.

Are There Any Potential Drug Interactions?

There is a potential contraindication for cannabidiol with the seizure medications clobazam and/or valproic acid. Consult your physician for more information.
